Dear Friends,

In 2018, the spirit of innovation and community involvement were big topics for Domino’s, with the launch of delivery Hotspots and the creation of the Paving for Pizza program. We are a brand that is focused on finding ways to give back and make our communities better – a large part of the essence of our culture is helping each other out.

We are so proud that Domino’s customers came together and raised more than $9.8 million for St. Jude Children’s Research Hospital® during the annual Thanks and Giving® campaign – yet another record contribution for the company. Over the last 15 years of this partnership, Domino’s has raised more than $57 million for the kids of St. Jude. We stand beside St. Jude in their mission to “advance cures, and means of prevention, for pediatric catastrophic diseases through research and treatment.”

2018 also marked the second year of our five-year, $1 million commitment to the National Future Farmers of America Organization, an intra-curricular student organization for youth interested in agriculture. Our support funded grants, college scholarships, and various advocacy programs and community service projects for students. I believe in this youth organization and what they’re doing for the future of agriculture, and ultimately, our business.

We also continued to support Domino’s team members through the Domino’s Partners Foundation. Partners distributed $1.6 million to nearly 1,400 team members in 2018. Call volume increased 20 percent in 2018. I am proud team members felt they could go to the Foundation for help, and proud of the team members who make that help possible.

This year, Domino’s donated more than $1.1 million through monetary and in-kind gifts to nearly 200 local and national organizations, including GENYOUth Foundation and Boys and Girls Clubs of America.

And every day, we are inspired by our franchisees and team members in communities across the country, who support local causes in the neighborhoods where they’re proud to live and serve.

We look forward to building upon our culture of giving back and supporting those in need in the days and years ahead.

Sincerely,

Ritch Allison, CEO
Domino’s team members served lunch at Capuchin Soup Kitchen in Detroit.
OUR NATIONAL PARTNER
Domino’s has been a proud supporter and strong ally of St. Jude since it was named as a national partner in 2004. Domino’s has raised both awareness and funds, helping St. Jude continue its lifesaving research and tireless efforts to find the cures that can save children around the world.

ST. JUDE THANKS AND GIVING® CAMPAIGN
Domino’s stores across the U.S. participated in the 2018 campaign by asking customers to add a dollar, or round up their total by donating change, to help the patients and families of St. Jude. With the combined support of customers, stores and team members, Domino’s contributed a record $9.8 million to St. Jude through Thanks and Giving and other fundraisers. In the last 14 years, Domino’s has raised more than $57 million to support St. Jude’s mission.

ST. JUDE WALK/RUN TO END CHILDHOOD CANCER
Domino’s created a St. Jude Walk/Run to End Childhood Cancer national team for the fourth year in a row. Friends of St. Jude all across the country walked and ran together in support of the fight against childhood cancer. Domino’s franchisees and team members in 30 cities came together to raise more than $154,000.

ADDITIONAL SUPPORT
Domino’s supports St. Jude through in-kind donations all year long. It provides pizza parties for St. Jude patients and their families, and the St. Jude logo is featured on millions of pizza boxes and through a link on dominos.com to assist in raising awareness for the hospital.
Domino’s Partners Foundation

Pictured on these pages: Hunter Lantz, son of Ryan Lantz, assistant manager in Clive, Iowa, since January 2013.
**TEAM MEMBERS HELPING TEAM MEMBERS**

2018 was the 32nd year of the Partners Foundation, and the year brought a 20-percent-increase in call volume. In 2018 alone, Partners distributed more than $1.68 million in financial assistance and helped nearly 1,400 Domino’s team members, 270 of which received assistance in the wake of hurricane devastation. Since the foundation began, more than $20 million has been allocated to team members who have been affected by illness, injury, fire, accidents or natural disasters.

The Partners Foundation is generously funded by donations received primarily through employee payroll-deduction programs, franchisee contributions and various fundraising activities.

**SUPPORTING FAMILY**

In the summer of 2018, Hunter Lantz, 14-year-old son of Ryan Lantz, was diagnosed with a rare genetic disorder called Schwachman-Diamond syndrome, which does not allow his bone marrow to produce the blood products needed to survive. The syndrome could develop into leukemia, so Hunter’s team of doctors determined he needed a bone marrow transplant. The transplant had to be completed at a hospital in Iowa City, more than two hours from Clive, Iowa, where Ryan has served as an assistant manager since 2013. The transplant required a five-month stay in the hospital, which meant many hours commuting between two places, and more hours of missed work. Ryan and his spouse struggled with anxiety on how to stay on top of bills for their family of five while managing Hunter’s medical care. Partners stepped in to assist, assuring that once the entire family could be home in Clive, they’d have a roof over their heads.

“When I reached out to Partners, I finally felt a little peace,” said Ryan. “We are so fortunate to work for a company that takes care of one another; we are a family too.”

Ryan continues to donate to the Partners Foundation through each of his paychecks, and thanks everyone who does the same.
Domino’s knows there would not be pizza if we didn’t have farmers, which is why it began a five-year, $1 million commitment to the National FFA Organization in 2017. FFA is an intra-curricular student organization for youth interested in agriculture.

In 2018, Domino’s commitment funded 20 grants toward supervised agriculture experiences for grades 7-11. These are for students who demonstrate financial need and are planning activities outside of class to gain hands-on experience and develop skills in agriculture-related areas.

Eighteen graduating high school seniors received FFA scholarships sponsored by Domino’s. These students are pursuing college degrees in animal science, agricultural education, agronomy & crop science and more. A student in Angleton, Texas, headed to Texas A&M in College Station received an additional scholarship matched by franchisee Mike Cunningham, who owns the store that serves her high school and new college town.

Domino’s contribution also supported agriculture literacy and advocacy programs, as well as FFA’s Living to Serve platform that supports hunger and environmental initiatives in local communities and states.

This year, Domino’s also donated pizza to feed students at leadership contests and toward incentives for national contests. In addition, franchisees and team members volunteered at workshops and competitions at FFA National Convention in Indianapolis, Indiana.

Domino’s is proud to support these students and the future of agriculture education in the U.S. We look forward to further integrating with FFA locally and nationally throughout this partnership.
Domino's team members bowled at a fundraiser benefitting community partner Big Brothers Big Sisters of Washtenaw County.
FRANCHISEES HELPING ORGANIZATIONS

In 2018, Domino's donated more than $442,000 in monetary and $96,000 in in-kind gifts, including gift cards and pizza deliveries, to hundreds of local organizations. Domino's supports a variety of organizations supporting causes broken down into seven categories, outlined in the index on the next page. These organizations are primarily based in southeastern Michigan, where Domino's was founded and is currently headquartered.

DOMINO'S is proud of its franchisees across the country who choose to support a wide variety of charitable initiatives in their own backyards by delivering pizzas and offering financial assistance.

PIZZA RELIEF

In 2018, stores across the country continued to deliver pizzas to people in times of unexpected need, as they have since our founding in 1960. We put corporate dollars behind that effort again this year to amplify the good work franchisees are doing. We are proud of our system for the dedication and ability to come together and provide needed support to the communities we serve in the wake of terrible disasters like hurricanes and flooding in North Carolina, South Carolina and Florida, fires in California, extreme cold in Michigan, among others.

Families at C.S. Mott Children’s Hospital in Ann Arbor, Michigan, came together on the first Thursday of every month for Domino’s pizza and live music.

First graders from Freeman Elementary School visited a local fire station to learn about fire safety from the Flint Fire Department and Domino’s.

The Myrtle Beach Fire Department picked up donated pizzas from their local store to feed first responders working around the clock in the wake of Hurricane Florence.
